FARMER DELEGATES HAVE BUSY DAY

Will Fix the Price of Cotton at Spring Convention.

MORE WAREHOUSES WANTED

Tom Watson Given Great Ovation When He Was Recognized in Front of the Chairman's Desk—Committees Hard at Work.

Atlanta, an. 25.—The most important business transacted in the convention of the Farmers' National union, at the second day's session at the state capitol, was the adoption of a resolution providing that the National Farmers' union when next assembled in convention, at a time and place to be fixed hereafter, shall fix the minimum price at which the crop of cotton of 1907 shall be marketed, and, further, that provisions be made for the extension of the system of cooperative union warehouses as a means to sustain the market price fixed upon by the union, storage charges and insurance being thus reduced to a minimum. The next meeting of the National Farmers' union will be held next spring.

The other features of the morning session were the ovation and informal reception tendered Hon. Thomas E. Watson upon his appearance in the hall just after the adjournment of the morning session, and the address by Campbell Russell, of Warren, I. T., a noted breeder of Herford cattle. Mr. Russell spoke in glowing terms of the solidity and promised permanency of the union, the faithful allegiance of its more than one million members, all of which presaged, the speaker declared, the time, not long to be delayed, when the farmer would control the markets of the world.

This condition attained, Mr. Russell said, unlawful speculators who had so long gambled in the products of the farm, would do one of three things—first, make an honest living; second, go t othe poor house, or, third, go to the penitentiary.

Long and vociferous applause greeted Mr. Russell's address, every syllable of which was thoroughly in accord with the views of the delegates.

The presence of Hon. Thomas E. Watson in the hall was not discovered until he had walked down the middle aisle and stood in front of the presiding officer's stand. At that moment President Charles S. Barrett recognized the brilliant Georgian, and his announcement was characteristic of the presiding genius of the union—the chief executive who bubbles over with enthusiasm and energy when any question affecting the interest of the farmer and the union comes to the surface.

"Boys," shouted President Barrett, as his gavel sounded a resounded whack on the marble slab, "here's Tom!"

A spontaneous cheer went up from the several hundred members in the hall as Mr. Watson mounted the rostrum in response to calls for a speech.

Mr. Watson declared that he had delivered his speech Tuesday night at the Tabernacle, and was not disposed to trespass further upon the time of the delegates with further remarks; that he had come over for the special purpose of shaking hands with the boys, and for tat only.

He was taken at his word, for the delegates surged forward and Mr. Watson's pen hand must be practiced indeed, if it be not incapacitated, for writing for several days.

The informal reception concluded the morning session.

The afternoon session was devoted largely to the consideration of committee reports, the attendance in the main hall being depleted by the absence of committeemen engaged in their work in the various committee rooms.

Shortly after 4 o'clock in the afternoon a hasty summons was sent to committeemen to gather in the representatives to hear a [illegible] Martin of Dallas, Tex., a cotton expert of many years' experience.

Colonel Martin made a practical talk to the convention on the conditions which confonted them from a cotton standpoint, and, after elaborating the specific market conditions of this day, assured his auditors that the future price of the cotton market lies largely in their hands should the organization live up to its spirit of co-operation and unity. From time to time, it is stated, Mr. Martin made suggestions which put him under the fire of cross-examination, but the applause heard on the outside of the hall indicated that his knowledge of his subject and his faith in his predictions stood the test of the most skeptically inclined among the delegates. Nothing is taken in sheer faith in this convention; every assertion must stand the test of experience or be proven by deduction.

At the conclusion of Mr. Martin's address the convention adjourned until 7 o'clock.

At 7 o'clock the convention again assembled, much routine work being accomplished.

A telegram was received from the State Farmers' union of Illinois, an organization formed two years ago, signifying the unanimous desire of that body to join the National Farmers' union, thus adding 35,000 members to the present membership of more than one million.

A resolution was adopted by a rising vote expresing the thanks of the union to the Atlanta press for the inspiring editorial and report of the proceedings of the convention.

By a unanimous vote the convention put itself on record as favoring legislation in all the states on the regulation of child labor.

The resolution to the effect that it was the sense of the convention that no state funds should be appropriated for state fairs where hoochee-koochee dancing and similar exhibitions calculated to deprave the morals of the public or to cater to a depraved class of society, was adopted unanimously amid cheers and laughter. Campbell Russell, of Russell, I. T., was the author of this resolution.

In accordance with the terms of a resolution adopted, recommending the establishment of cotton grading schools in the south, the following were appointed as a committee to arrange for the establishment of such schools: E. A. Calvin, president of the Texas state union; J. A. West, president of the Oklahoma state union, and J. E. Montgomery, the president of the Tennessee state union. Under the tutelage of expert cotton classers, members of the union will be taught the science of grading cotton in these schools.

Dangerously Hurt.

Gadsden, Ala., Jan. 25.—Tom Duckworth, a young man employed at the local plant of the Southern Steel company, was dangerously, if not fatally injured Wednesday afternoon. Duckworth is a switchman and was leaning over the side of a car that was being pushed by an engine. On another track was a car of steel with a piece projecting outward which struck the man in the side and injured him internally. The extent of his injuries is not known at this time, but he is in a precarious condition.

Cowboy Kills Six Mexicans.

Chicago, Jan. 25.—A dispatch to the Tribune from Douglass, Ariz., says that in a single handed combat at a Southern Pacific railroad camp, six miles from Montezuma, Sonora, Mexico, Bert Zelay, an Arizona cowboy, shot and killed six Mexicans. He killed three each in two separate fights and escaped.

Boys Will Be Reinstated.

Lexington, Va., Jan. 25.—The board of visitors of the Virginia Military institutes have passed an order reinstating the third class, early in January engaged in a display of fireworks from the roof of Smith hall contrary to regulations. The boys will be heavily penalized.

12,167,873 Bales Ginned.

Washington, Jan. 25.—The census report, issued Wednesday shows that 12,167,873 bales of cotton, counting round bales as half bales, have been ginned from the growth of 1906 to January 16, 1907. The number of [illegible] ginned this year is 218,886.

DEFENSE OF THAW VEILED IN MYSTERY

Doors to Courtroom Guarded By Police.

JURORS UNDER LOCK AND KEY

Only Two Jurors Have So Far Been Secured—Case Is Being Reported to the Ends of the Civilized Globe. Members of Family on Hand.

New York, Jan. 25.—The trial of Harry K. Thaw, for the murder of Stanford White, was resumed Thursday. The work in the court room Wednesday developed one or two features out of the ordinary. The first of these was the order of Justice Fitzgerald:

"The jury shall be kept in strict seclusion until its members shall have reached a verdict."

To lock up a juror at the beginning of a trial is unusual. It was done at the second Molineaux trial, and perhaps once since, but even in

HARRY K. THAW.

cases which have excited as much interest as the Nan Patterson hearings, the jurymen were allowed to return to their homes every night until all the evidence was in.

No explanation of this was given, but it is plain that the judge wishes the jurymen kept from possible outside influence.

The plans of the defense are still hidden. To the questions asked of the talesmen by the counsel on either side close attention was paid Wednesday to see if they would give any indication of what line the defense would take. But it seemed as though Mr. Jerome was much in the dark as anybody and the lawyers for Thaw permitted no word to escape them which would betray their intentions. The district attorney carefully guarded against the two obvious points which would be made against him. The Thaw case is being reported to the ends of the civilized globe. The eminence of the victim, the wealth of the prisoner, the dramatic circumstances of the crime, and the light it sheds not only on Broadway life, but on the doings of the fast set in every capital, have caused special arrangements to be made for the press.

When the morning session began Thursday there were two jurors in the box, Deming B. Smith, No. 1, and Charles H. Fecke, No. 2.

Nearly half an hour before the session was opened Mrs. Evelyn Nesbit Thaw made her way into the court room through the main doorway. She wore the same blue dress as the day before. Her features were again obscured by the heavy whit tulle veil. May McKenzie followed close behind the prisoner's wife, and then came Mr. and Mrs. George Lauder Carnegie. Mrs. Carnegie was muffled in furs.

Gives Property to Ministry of Labor.

Paris, Jan. 25.—A decree published in the Journal officially announces the turning of the palace of Cardinal Richard, archbishop of Paris, to the ministry of labor. It will be used for office purposes.

$70 PER MONTH FOR R. F. D.'S.

That Sum Agreed on by Post Roads Committee.

Washington, Jan. 25.—The postoffice and post roads committee of the house reached a decision in the matter of increased pay for rural free delivery carriers, and will recommend that the maximum salary be fixed at $840 per year, or $70 per month.

Judge J. M. Griggs, of Georgia, who is a member of the committee, was urging his bill calling for a raise to $900 a year, but a majority of the committee thought $840 the proper figure. This will no doubt pass the house and become a law.

The postal commission, who was appointed last spring to investigate the transportation of second-class mail matter, is about ready to report. On railroads carrying second-class mail exceeding in average weight 5,000 pounds per mile and less than 20,000 pounds, a reduction of 5 per cent will be recommended. Where the amount is in excess of 20,000, there will be a reduction of 8 per cent between 40,000 pounds and 80,000 pounds, a reduction of 10 per cent, and over 80,000 pounds, a reduction of 15 per cent.

The total amount thus saved to the government, according to the estimate of Judge Griggs, will be about three and a half million dollars annually.

Charged with Conspiracy.

Mobile, Ala., Jan. 25.—Late Wednesday night Martin Holbrook, manager of the Southern Express company's office, in Mobile, and F. L. Pickens, who is in charge of the depot office of the company at night, were arrested on warrants sworn to by Secret Service Agent Sauter, charging conspiracy in circulating the prize lists of the Honduras lottery company, the lists being referred to as "advertising matter," in the warrants. The specific charge named is accepting for shipment to J. M. Curtis, Cambridge Mass., a package of the prize lists. This is the package said to have been delivered to the express company's agent, Pickens, at the depot and shipped on the northbound Louisville and Nashville train early Tuesday morning. Holbrook made bond in the sum of $2,000 to appear before the United States commissioner on Feb. 14, and Pickens was released on a bond of $1,000.

Contagious Diseases Increase.

Chicago, Jan. 25.—The number of new cases of contagious diseases in Chicago was greater Wednesday than on any previous day during the present epidemic of scarlet fever, 223 cases being reported. There were also 55 new cases of diphtheria and 24 miscellaneous cases. Six deaths were listed in Chicago and one in Evanston. Chief factory inspector Davis will begin today the most rigid inspection fo sweatshops ever made in the city. This is to be done in the belief that the "finishing shops" of the congested districts may be centers from which scarlet fever is being spread. The discovery of a young girl lying ill with this disease on a pile of clothing that had been ready for delivery to the wholesalers by whom it would have been sold sooner or later to the retailer, and thus finally reach the consumer, led Inspector Davis to act.

Phenominal Rise in Mississippi.

New Orleans, La., Jan. 25.—A phenominal rise has occurred in the Mississippi river 75 miles below here where for three days the levees have been breaking. The river stands within about one-tenth of a foot of the highest rise on record in that district. Notwithstanding this unusually high stage near its mouth, the river at New Orleans and for hundreds of miles northward, is three feet and more under previous high records. It is thought that changes in the bed of the stre[illegible] account for the rise at the estuary.

Charged with Embezzlement.

Chicago, Jan. 25.—V. A. Pellarello, head of a local banking and loan company, is under arrest charged with embezzlement. According to the police Pellarello several years ago owned a bank in Youngstown, O. He suddenly disappeared from there, it is claimed, taking with him $700 belonging to John Moran, a farmer. Pollarello will be taken to Youngstown, O.

PROTECTORATE IS PLANNED OVER CUBA

Cubans Will Be Allowed to Set Up Another Government.

A REVOLUTION IS TO FOLLOW

Then a Protectorate—Annexation to United States in Distant Future. Magoon Working to Perfect the Details.

Washington, Jan. 25.—The administration has finally decided upon the future of Cuba, and a scheme that will result in the United States establishing and maintaining a permanent protectorate over the island within the current year have been tentatively agreed upon by the powers that be.

Americans who have money invested in Cuban real estate and securities will read with joy the announcement that Roosevelt, Root Magoon & Co., unlimited, have at last decided upon a definite course in regard to Cuba. They will be especially pleased to learn that the aforesaid statesmen, who constitute the administration in so far as the island is concerned, have determined on an American protectorate as the best form of government for the "headless natives" who inhabit the fertile and rich domain.

Governor Magoon, who has been in control of the situation since the United States intervened some months ago to quell the revolution, is now perfecting the details that have been worked out by Secretary of State Root, in conformity with the wishes of President Roosevelt. The governor is acting directly under orders from the state department, and his one aim is to get Cuban affairs in such shape that the United States will have little or no trouble in setting up a permanent protectorate when the critical time arrives.

The plans of the administration as regards Cuba have been in a process of incubation for months. Secretary Root has given much thought to the question and President Roosevelt has pondered no little over the future of Cuba. They have concluded that the Cubans as a race are unfit and unqualified for self-government.

But President Roosevelt opposes the United States "grabbing" Cuba. In this he is joined by Secretary Root. They desire to establish a permanent protectorate over the island, with a view to some time, in the distant future, annexing it outright. This must be done honorably, says the president. It can be done honorably, adds Mr. Root, speaking on information he has received directly from Mr. Magoon, governor of the island, who is on the scene and familiar with conditions.

The plan that has been decided upon and the one that will be followed is, naturally enough, based upon the belief of the administration that the Cubans are unfit for self-government. As it came from the white house and as it was unfolded to the writer, the plan follows:

Long about July 4th—the Glorious Fourth—the United States will temporarily withdraw all troops from Cuba, and the Cubans with much eclat will set up another Republican form of government, the election having been held in the meantime. The successful party in the election will hold the reins of the new government.

According to calculations at the state department, based upon information furnished by Governor Magoon, this new republican form of government will last about 30 days. Then there will be another revolution. The outs will wage war on the ins.

When the revolution is rocking along nicely, the United States will step in, peace will follow and a permanent protectorate will be established in the interest of humanity and the American interests represented on the island of Cuba.

Stapp Named for Chattanooga.

Washington, Jan. 25.—The president has sent to the senate the nomination of Thomas B. Sapp to be surveyor of customs for the port of Chattanooga.

ELKS ARE NOW IN NEW HOME

Held Their First Meeting in New Lodge Room Thursday Night.

FINE FOR THE PURPOSE

Room Was Constructed Especially to Suit the Convenience of Elks, and is Arranged in a Manner For Conferring Work in This Order.

One of the greatest and most successful meetings of the Benevolent and Protective Order of Elks ever held in Florida was the meeting of Gainesville Lodge No. 990, which convened in its elegant new hall on Thursday evening, when nearly a hundred were present to witness the opening ceremonies in the lodge room.

While the club-room now under course of remodelling and addition, has not yet been finished, owing to the fact that material could not be secured and labor was scarce, the lodge room was ready to receive the members of the order and three candidates presented themselves for initiation at the specified time.

The new lodge room is something of which not only the local lodge of Elks should feel proud, but something which is a credit to the city of Gainesville and the order. Constructed especially to meet the demands of the work required, it is a model in every way, and it is no wonder that the local lodge feels a dignified pride in its construction and equipment.

It was announced on the Thursday evening preceding that the new lodge room would be "ready for business" a week later, hence there was a big attendance. The chairs were not sufficient to seat those who came, but those who arrived late were content to share accommodations around the rostrum, so there was no inconvenience.

Three candidates were initiated into the mysteries of the order, and the work was conferred in a most impressive manner, not a hitch having been experienced, notwithstanding that everything was new to the working officers. At the conclusion they were congratulated upon the efficiency in which the work was carried through.

It will be several weeks, at the present rate, owing to the absence of material and the scarcity of labor, before the building will be completed, but the order will occupy the lodge room, and this alone will be worth a great deal to the lodge, as it is so conveniently arranged.

H. E. Beach of Live Oak, a well known and popular salesman who travels this section in the interest of the Quin-Marshal Company, Lynchburg, Va., is in the city. Mr. Beach's friends are always glad to see him here.

W. E. Bell of Trenton, member of the firm of Bell & Colson, the extensive contractors, was in the city Thursday and a part of Friday. Mr. Bell, who is an enthusiastic member of the Elks, came to attend the meeting of Gainesville Lodge No. 990, as he had a friend who was to pass through the mysterious portals, and he wanted to see the job well done—which he did.

D. C. Warner has returned from South Florida, where he has been for the past few days on business. Mr. Warner, who was formerly with The S. J. Thomas Company, is now representing a large wholesale house from Atlanta, and is enjoying a fine trade. He still makes his home in this city, however, and says he proposes to keep his family here. This will be gratifying news to those who have met Mr. and Mrs. Warner, as they have added a great deal to social life here.

Among the prominent visitors to Gainesville Thursday was M. D. Clowers of Trenton, one of the most efficient employes of the Bell & Wade Company, extensive contractors, who built the Jacksonville and Southwestern division from Newberry to the Suwannee river. Mr. Clowers, who was for several years a conductor on the Atlantic Coast Line, resigned that position for the one he now holds, and his employers think a great deal of him and his ability. He was one of the candidates for initiation into the Elks on Thursday night.

A team belonging to and driven by George Brumley, the trucker, took a notion to do a sprint on the east side of the square Thursday evening, with the result that there was a little excitement. The driver was equal to the occasion, however, and mastered the animal, but not until after a vigorous cakewalk had been done for the benefit of those who witnessed it, a few of whom felt uneasy of something worse. Had it not been for the fact that Mr. Brumley understood a horse thoroughly there would have probably been something more serious to write about.

Senator H. H. McCreary and family, with their guest, Miss Kate McCanless of Salisbury, N. C., spent yesterday at Spring Park Stock Farm as the guests of Manager Callison. They were entertained in the hospitable manner for which Mr. Callison is noted, and were treated to a dinner fit for the gods. Miss McCanless was enchanted with Spring Park Farm and surroundings, and was surprised that such fine stock as to be seen on this farm could be raised in Florida. The party returned late in the evening feeling deeply grateful to Manager Callison for the delightful day they had spent at Spring Park Farm.

TREES ARE IN BLOOM.

Continued Warm Weather Causes Blooms to Appear Early.

The continued warm weather during the past few months has in one way proved a blessing to the horticulturist, as it has caused peach and other spring fruit blooms to come out earlier than usual by several weeks, which means that the yield will be earlier, and if fully matured will bring better prices, being in the market in advance of all other sections.

But in the meantime, should a sudden dropping of the thermometer occur, it will mean disaster to the fruit crop of this section, as all the bloom will be killed or injured, and it will not only set back the fruit, but cause imperfections which are bound to prove of loss to the growers.

TOWNSEND HOME SOLD.

One of the Oldest Landmarks of the City Passes Into Other Hands.

The old Townsend homestead, on the corner of Palmetto avenue and East Court street, has at last changed hands, after having been among the holdings of Mrs. C. A. Townsend, a widow who is well known throughout the city, for many years.

The property, which is among the most desirably located in the city, was purchased from the estate Thursday, and the purchaser was Ira Baird. It is one of the most desirable properties in Gainesville, being one of the first built up in modern style, and was the home of one of the oldest residents of Gainesville.

Mrs. Townsend and her husband came from the West to Gainesville a quarter of a century ago. When they purchased land and erected their home, it was then "in the woods," to use the expression; but the growth of the city has encroached the premises from all sides, until now the place is located in the very heart of the society of East Gainesville.

Mr. Townsend died many years ago, and his good wife, who was one of the best women Gainesville ever knew, passed to the mysteries of the great beyond in 1904. The property has been on the market ever since, being in the hands of non-residents, heirs of the estate, and was sold as above stated.

The property in question is among the most desirably located in East Gainesville. The lot is a large one, about 100x100, and contains a good two-story house which can be conveniently arranged as a residence or flat. It has not been learned what the new owner intends to do, but it goes without saying that the place will be made to pay a good interest on the investment.

For Marshal.

I respectfully announce my candidacy for the office of City Marshal at the election on April 9th, 1907. If elected I shall perform the duties of the office without fear or favor.

AN EXCITING RUNAWAY.

Team Dashed Into Public School and Caused Much Excitement.

A runaway team belonging to the Crawford & Davis stables became frightened at a train Friday afternoon about 1 o'clock, and made a dash around the corner and down Mechanic street in an easterly direction, which caused a great deal of excitement on the streets.

The team, which was lined up with others at the Atlantic Coast Line passenger station, seemed to take a sudden fright. They made a quick turn, upsetting another carriage, and moved off at a lively gait. Just as they turned the driver was thrown from his carriage, and notwithstanding that he held the lines for a few feet the team got away and made a straight line for the University High School, where they were successful in breaking up the school.

Arriving at the building while the children were at their studies, the horses dashed into the building, and, remarkable to state, the heavy carriage was not demolished, but cleared the hallway, though it played havoc with the big doors, demolishing them as the hubs struck the door flanges. The carriage passed, however, and when the frightened horses were on the inside there was the greatest excitement. Children and teachers were at once on their feet, and the excitement which followed can never be properly described.

One of the horses went through a window, while the other was captured in the alcove. The animal which took the window route of advent was cut about the front fore leg, but that was about the only damage to be recorded, so far as can be learned.

There was no serious damage, which was a miracle. It was a fortunate thing that the children at the school were not at recess at this time, as there would have been many of them in the corridors, as the corridors are a part of their play-grounds.

This was a most peculiar incident, and one that will probably not occur again in a lifetime. The horses did not seem to be excited when they arrived at the school, and it might be that they felt a little instruction under Principal McBeath would prove of some benefit to them.

CULPEPPERS ARE MAKING BIG HIT

Junior Preacher Talked to the Children Friday A ternoon.

SERVICE IN THE EVENING

Rev. Culpepper Was Still Ill, and the Pulpit Was Filled by His Son, Who Preached to an Audience Composed Mostly of Men and Boys.

The revival in progress at the First Methodist Church still increases in interest.

At three o'clock Friday Rev. Burke Culpepper preached to the children and young people. The house was crowded. He took for his text Luke 18:16—"Suffer little children to come unto me, and forbid them not, for of such is the kingdom of heaven." Brother Burke—as he tells the children to call him—knows how to get and hold the attention of children—as well as of older folk. His sermon, replete with anecdote and illustration, humorous and pathetic, was a powerful and earnest plea for a clean, pure life, and coming from his own heart, brimming over with Christian love and anxiety, went straight to the hearts of his young audience. If ever a speaker had his audience completely at his command, Brother Burke had yesterday afternoon. He said in all colleges and high schools "yells" were in the fashion, and that he had one he wanted to teach them, which he at once proceeded to do, the audience proving apt pupils. The "yell" was as follows:

"O my chum, have you seen,
II Timothy, 3:15?
I Thessalonians, 5:22
Will tell you exactly what you must do."

At the conclusion of the sermon, in reply to the question how many wanted another children's meeting next Monday afternoon, every little hand in the house was enthusiastically raised.

Owing to the continued illness of his father—which, however, is not serious—the evening services were again conducted by Bro. Burke. On account of the inclement weather the audience was not large, and strange to say was composed largely of boys and young men.

The meeting was opened with a song service of some half-hour, after which Bro. Burke spoke eloquently and feelingly from the text, "My Son, Give Me Thine Heart."

He spoke over a half hour, his theme being the joy and the sweetness of pure right life, a life of service to God and our fellow men. His tribute to his father was one of the most beautiful and touching things ever heard in this city. He was listened to with profound attention, and the sermon evidently made a deep impression upon everyone present, though addressed especially to the young men and boys.

There will be no day services today; but tonight the elder Culpepper will preach at the usual hour. Sunday there will be preaching at 10:45 and 7:15. At 3 p. m. Sunday he will preach a sermon to men only at the court house. Every man, young and old, in the city, should attend this service.

Mrs. Haile Entertains.

Mrs. J. M. Haile entertained the members of the Married Ladies' Card Club at her home Thursday afternoon.

There were five tables, and the game was the favorite five hundred. The honors at the end of the contest were between Mrs. James B. Dell and Mrs. E. E. Cannon, and on the cut Mrs. Cannon won. This was a handsome prize, being a genuine hand-crocheted shirt waist, something very rare and expensive.

The refreshments at the entertainment were also very unique, being quail on toast, Saratoga chips, English peas and olives.

Auto Industry Making Strides.

Paris, Jan. 23.—The French automobile industry during the past year has continued to make remarkable strides. The statistics of exportation which have become available show that the exportation of French machines during the first nine months of 1906, exceeded those for the corresponding period of last year by 33,841,000 francs, the total exportation amounting to 126,451,000 francs, against an importation of foreign cars of only 7,150,000.

No Sub-Treasury for Southeast.

Washington, Jan. 23.—Secretary Shaw has been franker with the Texas claimants for a subtreasury than he was with those in the southeast. In reply to a letter from Representative Morris Sheppard, of Texas, asking if there was any possibility of securing a subtreasury in Texas, Secretary Shaw wrote briefly and pointedly that there was not, and further volunteered the information, "Neither do I think one will be established in the southeast."

Lumber Manufacturers' Association.

New Orleans, Jan. 23.—The second annual meeting of the Yellow Pine Lumber Manufacturers' association opened here Tuesday with delegates present from all sections of the country. President John L. Kaul, of Birmingham, Ala., presided. The morning session was devoted to listening to addresses and a general discussion of trade conditions.

Tillman Was Re-Elected.

Columbia, S. C., Jan. 25.—The general assembly of South Carolina in joint session elected B. R. Tillman to succeed himself as United States senator. John S. Wilson, of Clarendon county, was elected judge of the third circuit to succeed R. O. Purdy, resigned.

TIRED AND SICK YET MUST WORK

MRS. AUG. LYON

"Man may work from sun to sun but woman's work is never done."

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

Lydia E. Pinkham's Vegetable Compound

keeps the feminine organism ina strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:—Dear Mrs. Pinkham:—"For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides, I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

Mrs. Pinkham's Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

BROTHER SLAIN BY BROTHER?

John Moore, of Burke, Arrested on that Charge.

Waynesboro, Ga., Jan. 25.—Thos. H. Moore was arrested in Augusta charged with the murder of his brother, John Moore, who was found dead in the road 3 miles from Keysville on last Tuesday morning. A negro, Joe Daggett, is also under arrest at this piace as an accessory.

The murdered man carried life insurance to the amount of $3,000. The developments are that the dead man was murdered for his insurance. The negro, Joe Daggett, has made a partial confession verifying these facts.

A preliminary hearing will be held later, and it is expected that the evidence will disclose one of the most horrible fratricides in the history of this county.

Moore Had Just Paid Detective.

Augusta, Ga., Jan. 25.—The murder of John Moore, at Keysville, last week, was one of the most foul committed in this vicinity in many years. Four bullets had been fired into the man, and the body left in a secluded road where it was found the next day.

The affair created quite an excitement in this part of the state. At the time of his arrest Tom Moore was sitting in the office of the magistrate to whom he had just paid $20 for services of a detective to discover the murderer.

The arrest was made by the city authorities, who refuse to give out the testimony on the grounds upon which they are acting. Moore had employed counsel and is professedly very indignant at the arrest.

Mormons Meet at Chattanooga.

Chattanooga, Tenn., Jan. 25.—The annual meeting of the presidents of the sixteen conferences of the Church of Jesus Christ of the Latter Day Saints, better known as the Mormons, was held here Wednesday, President Benjamin Rich, of the southern states' mission, presiding. The general work of the church in the south was discussed. Over 800 converts in the past year were reported, bringing the southern membership up to 11,000. President Rich stated that the church intended to make an innnovation within the next year by sending out older men on the missionary work, it being believed that these would be more powerful in making converts than the young elders who have been plyed in these duties in the past. The young workers will, however, be retained, there simply being additions to the field forces.

Vardaman Home Sees Lynching.

Jackson, Miss., Jan. 25—Information reported here was that a negro named Henry Bell was lynched at Greenwood, the home of Governor Vardaman by unknown parties. The negro assaulted Mrs. Graves of that place, some months ago, and had been in the Greenville jail for safekeeping. He arrived at Greenwood in charge of deputy sheriff, and while that official was taking him from the train to the jail he was surrounded by fifty men, who took him away and strung him up to a railroad bridge. The coroner's jury returned a verdict that the negro came to his death at the hands of unknown parties.

A Woman's Back

Has many aches and pains caused by weaknesses and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nervine known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy OF KNOWN COMPOSITION, even though the dealer may make a little more profit thereby. *Your* interest in regaining health is paramount to any selfish interest *of his* and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.

LARGE SUM FOR THE SOUTH.

Is Appropriated by Committee on Rivers and Harbors.

Washington, Jan. 25.—The river and harbor appropriations bill, which was reported to the house Thursday by the committee on rivers and harbors, carried an appropriation aggregating $83,466,138.

Of this sum $34,631,612 is appropriated cash to be available between July 1, 1907, and July 1, 1908, and $48,834,526 is authorized for continuing contracts, no time limit being fixed as to when it shall be expended. This bill is a record-breaker in size, exceeding by many millions the amount allowed for river and harbor improvements in any congress.

Among the items in the bill are: Virginia gets the sum of $1,599,954, North Carolina $495,562, South Carolina $273,290, Georgia $1,591,650, Florida $1,342,610, Alabama $3,063,000, Tennessee $1,643,625.

Ohio River Falling.

Louisville, Ky., Jan. 25.—The Ohio river fell almost a foot during the night and from now on is expected to recede rapidly. The minimum temperature last night was 19 feet, causing suffering among the refugees, who will not be able to return to their houses for two or three weeks. President George W. Stevens, of the Chesapeake and Ohio, who is at Wellsburg, Ky., with a force of men and material for repairs, estimates the damage caused by the floods to that division of the road at $200,000.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guranteed at all drug stores. 50c and $1. Trial bottle free.

THOUGHTS.

"It may be wrong, but I sometimes wish nature would be more stingy of her secrets. She has given them out with so lavish a hand that some men think the greatest thing in the world is to persuade her to work in some newly invented harness. Edison and the other wizards of science have almost succeeded in making life automatic. Its chord is set to a minor key. Plain living and high thinking, that once went together, are transformed into high living and very plain thinking. The old-time simplicity of manners, the modest tastes of our fathers, have given way to the clang and clash, the noise and turbulence that characterize the age. We know too much; and too little. Life has lost something of its zest, some of the glory that used to be in it, since we were told that mind is only an emanation of matter, a force of principle mechanically produced by molecular motion within the brain."—George R. Peck.

THE ELECTRIC LIGHT OCTOPUS

The Sun has for some time been aware that the best citizens of Gainesville were growing restless under the outrageous treatment to which they have been and still are subjected by the Gainesville Gas and Electric Light Company, a foreign corporation that has a fat thing in the monopoly of gas and electricity in the city. We have even ventured ourself on several occasions to enter, in a more or less mild way, our protest against its extortionate rates and high-handed way of doing business. And so we are especially glad to see that there is at least one of our citizens who does not propose to submit tamely to oppression and insolence even from a monopoly, and who is not afraid to speak out and to the point in protest against the wrongs and in defense of the rights of his fellow-citizens and himself.

The article from the pen of Mayor Thomas, published in Thursday's Sun, puts the case clearly and not one whit too strongly before the people of Gainesville, and has our hearty endorsement. We believe this rapacious and conscienceless monopoly has at last over-reached itself in the high-handed act of cutting out Major Thomas' lights because he refused to be robbed to the extent of the 10 per cent which had been added to his bill as a fine for not having paid it four or five days sooner. This high-handed act, we say, ought to wake our people up as to what they may expect in the near future unless they take some steps to protect themselves. We hope that it may result, too, in stimulating our worthy Board of Public Works to get a move on itself, since it holds in its hands the remedy not only for the ills we now endure, but for the still more serious ones with which we are threatened. To speak in all calmness, it is a burning shame that a city the size of Gainesville should be so completely at the mercy of so merciless and greedy a monopoly as this foreign corporation has shown itself to be, and steps should be taken at once to free ourselves from its aggressive tyranny.

We are paying an extortionate price for our electricity, granting, for the sake of argument, that we always get what we pay for—about which, however, we have very serious and well-lodged doubts. Other cities, many not so large as Gainesville, own their electric light plants, and not only furnish to the consumers light and power at less than half the rate we are paying, but find it, over and above that, a profitable source of municipal revenue.

The over-charges we are paying this monopoly today would pay the city's entire expense, including interest on our bonded indebtedness.

Now is the time to act. Unless the matter is remedied, it is going to get worse. The richer this monopoly grows—and it is getting rich rapidly—the more insolent and overbearing it will become, and the more difficult it will be to shake loose its hold upon our throats. We had better get out of its clutches before it gets a firmer grasp of us.

The outrageous treatment of Major Thomas, a man who has perhaps done more for Gainesville than any other single citizen in it, shows what the rest of us may expect. What do you think of it, citizens of Gainesville? What do you think of it, Mr. Councilman? What do you think of it, members of the Board of Public Work? Isn't it about time somebody was getting busy?

UNIVERSITY NOTES.

Examinations for the close of the first semester begin January 30, and continue one week, each class being allowed one-half day for the completion of their work. The second semester begins February 8th and several new students are expected to enter at that time.

Two tennis courts are now completed ready for spring athletics and Captain Cox is at work preparing a splendid swimming pool. The boys are beginning to practice baseball

Mr. Frank Gammon of the University of the State of Florida and Mr. Beverley Blackman, a son of President Blackman of Rollins College, took the examinations for the Rhodes scholarships conducted by Professor Anderson of the University of Florida on January 17th, and their papers have been sent on to Oxford University to be graded.

Professor Clothier, who is at the head of the Department of Agriculture in the University, went to Lake City last week to attend to the moving of the equipment of the laboratory in Veterinary Science from that city to the new University buildings in Gainesville.

Professor John M. Scott, who recently took charge of the Department of Animal Husbandry in the Florida Experiment Station, is no stranger to the station workers, he being the author and joint author of several publications on animal industry subjects. The herd in his department now numbers about forty animals, thoroughbreds and grades.

Bulletin No. 87, "Soil Studies No. 1," is now being distributed. Professor Blair's work in connection with pineapple fertilization is too well known to need introduction. Professor Blair has extended the work from the matter of fertilizers to the soil. Carefully conducted soil experiments show the great loss of plant food in the soil through leaching. Professor Blair has proved that in some cases over sixty per cent of the fertilizer applied is lost from this source. He has also further proved that this loss can in a large measure be overcome, and is now continuing his studies to work a practical and scientific method of preventing it. If the pineapple field should be taken as a typical illustration of the loss of fertiiizer from leaching it will be seen that the farmers of Florida are annually losing hundreds of thousands of dollars worth of fertilizer from this cause alone.

On the 14th of this month Director P. H. Rolfs delivered a lecture to the St. John's River Fruit Growers' Association at DeLand. The meeting was largely and enthusiastically attended. On the 21st and 22nd of January Dr. E. W. Berger conducted some scientific investigations in the nurseries at Glen Saint Mary.

Professor A. W. Blair has moved the chemical department of the Experiment Station from Lake City and is installing the plant at Gainesville. This department alone required several cars to haul its equipment.

As Harriman controls California politically, through the railroad monopoly in the State and by the money he furnishes the Republican politicians, why not let him also protect California from the Japanese instead of the rest of us bothering about it? The people of any State that allow a railroad or trust baron to control them deserve all that they get. Such a remedy is rather hard on the Democrats and other good people who have been fighting the corrupt Republican ring, but they must spur up and fight the harder and call upon all good citizens to join with them.

Chas. B. Kendall has retired from the management of The West Palm Beach Tropical Sun, Willard L. Bragg, an experienced newspaper man from St. Augustine, succeeding him. The press of Florida regret the retirement of Mr. Kendall, but extend the right hand of fellowship to Mr. Bragg.

The North Carolina Legislature insists upon the Governor reading his messages to both houses in person. This frightful state of affairs ought to cause Mr. Roosevelt to pause and think.

LEGAL ADVERTISEMENTS.

NOTICE OF APPLICATION FOR LETTERS PATENT.

Notice is hereby given that on the 7th day of February, A. D. 1907, the undersigned will apply to His Excellency, Napoleon B. Broward, Governor of the State of Florida, for Letters Patent on the Charter proposed accompanying this notice.

Under and pursuant to the requirements of the Statutes of the State of Florida, we, the undersigned, C. W. Chase, Clarence B. Strouse, E E. Cannon and J. E. Graham, desiring for ourselves, our associates and successors, to form and be incorporated as a corporation, do hereby give notice that we shall apply to the Governor of the State of Florida for Letters Patent.

THE PROPOSED CHARTER IS AS FOLLOWS:

First—The corporate name of said corporation shall be "THE AMERICAN FLANGE FROG AND RAILWAY IMPROVEMENT COMPANY," located and having its place of business at Gainesville, Florida, and such other place or places of business as may, from time to time, be designated by the Board of Directors.

Second—The general nature of the business to be transacted and the purposes and objects for which this corporation is organized are: the manufacture and sale of the "Graham flange frog," and other railway appliances; the purchase and sale of foreign and domestic patents; to buy, mortgage, sell or deal in real estate and personal property; to engage in any and all manufacturing enterprises and industries, that may be managed, owned or controlled by a corporation of this character; to conduct, own, manage, acquire or operate any and every kind and character of business that may be conducted, owned, managed, acquired or operated by a corporation of this character under the laws or Florida now existing or hereinafter enacted, and generally to do all things necessary and proper for carrying on said business or to protect and advance the interest thereof, and for these purposes to have and possess all the rights, benefits, privileges and immunities incident to and given under the laws of this State to a corporation of such character.

Third—The amount of the capital stock of said corporation shall be Five Million Dollars, to be divided into Fifty Thousand shares, at a par value of One Hundred Dollars each, payable in lawful money of the United States, or in property, patents, franchises, labor or services, at a just valuation to be fixed by the incorporators, or by the directors at a meeting called for such purpose.

Fourth—This corporation shall exist for a period of ninety-nine years, and its corporate existence shall commence on the date of the issuance of Letters Patent.

Fifth—The business of this corporation is to be conducted by a President, Vice-President, Secretary and Treasurer, and a board of not less than three nor more than thirteen Directors, of which Board of Directors the President, Vice-President, Secretary and Treasurer shall be members. The offices of Secretary and Treasurer may be held by one and the same person. The officers and directors shall be elected annually at the annual stockholders' meeting, the first of which shall be in the company's general office in Gainesville, Florida, at two o'clock p. m. on the second Thursday in February, 1907, and annually thereafter, and until such first election the names of the officers who are to conduct the business of the corporation, until those elected at the first election shall be qualified, are as follows: C. W. Chase, President; Clarence B. Strouse, Vice-President; E. E. Cannon, Secretary and Treasurer The Board of Directors shall be: C. W. Chase, Clarence B. Strouse and E. E. Cannon, until their successors shall be elected and qualify. The number constituting the Board of Directors may be changed and fixed by the stockholders at any meeting called for that purpose, provided that said board shall not consist of less than three nor more than thirteen members.

Sixth—The highest amount of indebtedness or lisbility to which said corporation can at any time subject itself shall not exceed the amount of the capital stock authorized under this charter.

Seventh—The names and residence of the subscribers are: C. W. Chase, Gainesville, Florida; E E. Cannon, Gainesville, Florida; Clarence B. Strouse, Salem, Virginia; J. E. Graham, Salem, Virginia.

Eighth—The subscribing incorporators towit: C. W. Chase, Clarence B. Strouse, E. E. Cannon, J. E. Graham, have subscribed for the following amount of stock set opposite their names respectively:

C. W. Chase, twelve hundred and fifty shares.

Clarence B. Strouse, twelve hundred and fifty shares.

J. E. Graham, twenty-five hundred shares.

E E. Cannon, two hundred and fifty shares.

The amount of stock so subscribed exceeds ten per cent of the capital stock authorized under this charter.

Ninth—The above and foregoing charter is subscribed to by the following persons, viz:

C. W CHASE
CLARENCE B. STROUSE,
E. E. CANNON,
J. E. GRAHAM,

W. Chase, Clarence B. Strouse, E. E. Cannon and J. E. Graham, who being first sworn each for himself says and acknowledges that he signed the above and foregoing charter in the manner and for the uses and purposes therein set forth and expressed, and that the above signature is his signature.

In testimony whereof I have hereunto set my hand and affixed my notorial seal at Gainesville, Florida, on this 8th day of January, A. D. 1907.

[SEAL.] W. S BROOME,

Notary Public, State of Florida at large. My commission expires 14th December, 1908.

UNPROFITABLE FEEDING

Intelligent stock raisers know that a certain amount of feed is necessary to keep an animal alive. They might feed that amount as long as it lives, and it would never gain a pound.

There is no profit in that kind of feeding. The kind that pays is the kind that builds flesh rapidly. If it takes twenty pounds of food each day to keep a sheep alive, twenty-five pounds a day will make it gain flesh. It's the extra five that brings the profit. The first five pounds amounts to nothing, nor does the second or third or fourth five pounds.

It's the same way with advertising. You have to do a certain amount to overcome the resistance of the public.

You have to do a certain amount of advertising to make them wake up to the fact that you are in business at all. You have to pay a certain amount to keep your advertising alive. What you pay above that amount brings profit.

Some advertisers fail because they do not use enough space. They use barely enough or sometimes not quite enough to make the advertising self sustaining. A little bit more would make it profitable. It is better to advertise a little too much than not quite enough.—Charles Austin Bates.

Some of our advertisers could enlarge their space with profit.

QUEENED ONLY TO DIE

THE TRAGIC DESTINY OF LOVELY LADY JANE GREY.

As a Little Child She Was the Most Learned Girl For Her Age of Which History Has Any Record—Her Whole Life Was Somber and Sad.

Sweet Lady Jane Grey, who reigned for a few months as queen of England and had her head cut off with an ax in the Tower of London for so doing, was as a little girl the most learned child for her age of which history has any record.

Before she was nine years old she wrote a beautiful hand and was able to play well on several different sorts of musical instruments. In languages she was wonderful. She could speak several, both ancient and modern, with ease.

By the time she was twelve she was possessed of all the accomplishments taught young ladies of rank in those days and, besides that, could not only write but speak in Latin, Greek, Chaldaic, Arabic, French, Italian and Hebrew. She was also well grounded in philosophy, and when other children were out playing she used to amuse herself by reading the writings of the philosopher Plato in the original Greek.

Perhaps it was because the pretty Lady Jane's childhood was so lonely as well as because of the extraordinary powers of her mind that she took to study so kindly and learned so many things while so young. Her father and mother were away at court much of the time, leaving the girl to the care of her governess and her schoolmasters at the great, gloomy family place called Bradgate, down in the country. The big, ugly, square brick house was built on the edge of a great forest and surrounded by thousands of acres of almost uninhabited land.

There were few books and no newspapers at the castle and no playmates for Lady Jane, for her governess would not let her play with the children of the servants, and there were no other children within miles.

When she was fourteen years old Lady Jane was taken to court by her parents and after that spent much time there, where everybody was delighted by her learning, her beauty and her wit. At court she was able to have some recreation, but she still kept up her studies, and when she went to spend long periods with her parents at gloomy Bradgate she had a hard time of it.

In a letter which she wrote to the celebrated scholar, Roger Ascham, with whom she used to correspond as with an equal, she tells how whenever she tried to do anything in the presence of her "sharp and severe parents," either to "speak, keep silent, sit, stand or go, eat, drink, be merry or sad, be sewing, playing, dancing or doing anything else," she was constantly criticised and very often pinched or slapped if she did not do it perfectly.

In those days children were freely chastised by their parents even after they had grown up, and Lady Jane, great heiress though she was and of the royal blood, got her share of whippings. But she says that when she was at her studies she was always happy, and when called away from them she would burst into tears.

Ascham, who visited her at Bradgate when she was a girl of twelve, found her reading Plato in the original when the rest of the family were out hunting, and she told him that she was thankful for having such stern parents, as she had learned by their strict discipline to find more happiness in learning than in all the pomps and vanities and all the pleasures of the world.

She was a wonderful child in her knowledge of politics and of what was taking place in foreign countries, and great men used to correspond with her about affairs of state when she was a little miss of twelve as if she were a grown woman of the greatest intellect.

But poor little Lady Jane! All her learning and wisdom did not save her from a sad fate. When she was sixteen they married her to a weak but otherwise estimable young man and made her queen for a few months. Then she was overthrown, taken prisoner and early the next year had her head cut off for usurping the crown.

It was her ambitious father who forced her to take the crown, and he, too, had his head cut off for the bad advice he gave his daughter.

Those were stern old days when they carried on their political campaigns with an ax, and a learned, gentle and beautiful girl like Lady Jane was out of place in them.

But if she found no sympathy in her own times she has found it since, and more tears have been shed over the sad fate of Lady Jane Grey by the present age than her misfortunes and her virtues ever caused to flow in her own.—London Spectator.

A Convenient Memory.

Mother—Tommy, what did I say I'd do to you if you touched that jam again? Tommy—Why, it's funny, ma, that you should forget too. I'm blamed if I can remember!—Philadelphia Telegraph.

Often The Kidneys Are Weakened by Over-Work

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Heroic Treatment.

In these days, when child study is a hobby ridden long and hard, it is interesting to read of the nerve training which fell to the lot of the Quaker authoress, Amelia Opie, in 1769 and after. The modern mother would shrink with horror from some of the methods used on the sensitive child, but in this case it resulted in splendid stuff. Mrs. Opie is quoted in a book on "Quaker Worthies."

"I was a creature of fears, tears and screams. My first terror was of black beetles, then of frogs, skeletons, black men and madmen. My mother made me take a beetle in my hand and hold it. As her word was law, I obeyed, but with awful shrinking. I gradually became accustomed to it and was frequently told to take one up and put it out of harm's way. I soon overcame that terror. I was made to hold frogs in my hands and was taught to nurse a skeleton as I would a doll. Mother compelled me to listen to her kindly converse with two poor old lunatics, and I grew to pity them instead of fearing them."

Why

should your baby suffer? When he is fretful and restless don't experiment on him and use any old thing your neighbor recommends. Buy a bottle of White's Cream Vermifuge, greatest known medicine and cure for all children's diseases. It is mild in its action, builds up the system, makes thin puny babies fat. Mrs. J. C. Smith, Tampa, Fla., writes: "My baby was thin and sickly, could not retain its food and cried all night. I used one bottle of White's Cream Vermifuge and in a few days baby was laughing, happy and well." Sold by W. M. Johnson.

Arousing Emulation.

Little Johnnie, having in his possession a couple of bantam hens which laid very small eggs, suddenly hit on a plan. Going one morning to the fowl run, Johnnie's father was surprised to find an ostrich egg tied to one of the beams and above it a card with the words:

"Keep your eye on this and do your best."—London Tit-Bits.

A Fool Friend.

"A horse is a man's best friend," said the man who likes animals.

"Yes," answered young Mrs. Torkins, with a sigh, "but when he gets on the race track he is liable to prove one of those fool friends who make so much trouble."—Washington Star.

The Joy,

of living is to have good health. Use Herbine and you will have bushels of joy. You need not be blue, fretful and have that bad taste in your mouth. Try a bottle of Herbine, a positive cure for all liver complaints. E. Harrell, Austin, Texas, writes: "I have used Herbine for over a year, and find it a fine regulator. I gladly recommend it as a fine medicine for dyspepsia." Sold by W. M. Johnson.

Bismarck's Mystic Number.

Bismarck, writes a correspondent in reference to our paragraph on superstition, held, with Pythagoras, that not 13, but 3, was the great and perfect number. Bismarck's associations with 3 were remarkable. He had served three masters. He had three names—Bismarck, Schoenhausen and Lauenburg. The arms of his family are a clover leaf and three oak leaves. He was concerned in three wars and signed three treaties of peace. In the Franco-Prussian war he had three horses killed under him. He brought about the meeting of three emperors and was responsible for the triple alliance. He had three children. His family motto was "In Trinitate Robur" ("Strength In Trinity"), and contemporary caricature pictured him with three hairs on his head. Three was the beginning, the middle and the end of Bismarck.—London Chronicle.

Wise Counsel From the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. R. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles I was completely cured—so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at all drug stores. Price 50c.

As to Ink.

All the world uses ink. Most of it is very bad, but once in a great while we find an "encre" that we can write with. Nearly every ink corrodes the pen, and nearly every pen poisons and dries up the ink. There never was a properly constructed inkstand or ink well. But we must have patience. All good things come to the fellow who waits and prays. The word "ink" presents in its formation not only a historical memento of the original inventors and almost sole users of that fluid, but also another vivid example of the abbreviating power of our language. Its Italian cognomen, "inchiostro," means literally "in a cloister" and recalls to memory the deep obligations which literature owes to those ecclesiastical retreats in which its vestal fires were so long piously guarded.—New York Press.

Chronic Constipation Cured.

One who suffers from chronic constipation is in danger of many serious ailments. Orino Laxative Fruit Syrup cures chronic constipation as it aids digestion and stimulates the liver and bowels, restoring the natural action of these organs. Commence taking it today and you will feel better at once. Orino Laxative Fruit Syrup does not nauseate or gripe and is very pleasant to take. Refuse substitutes. J. W. McCollum & Co.

The Hyena in Shakespeare's Time.

John Trevisa wrote that "the hyoena is a cruel beast like to the wolf in devouring and gluttony. It is his kind to change sexes, for he is now male and now female and is therefore an unclean beast. And cometh to houses by night and feigneth man's voice as he may, for men should trow that it is a man, and herds tell that among stables he feigneth speech of mankind and calleth some man by his own name and rendeth him when he hath him without. And he feigneth oft the name of some man for to make hounds run out that he may take and eat them."—"Shakespeare's Natural History."

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. J. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." J. W. McCollum & Co.

His Turning Point.

De Style—That was the "turning" point in his life. Gunbusta—What was? De Style—When he joined the circus as a tumbler.—New York Times.

Be cautious what you say, of whom and to whom.—Fielding.

A Thousand Dollars Worth of Good.

A. H. Thornes, a well known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder troubles for years, passing gravel and stones with excruciating pain. I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me $1,000 worth of good." J. W. McCollum & Co.

Only purest ingredients used in our baking. Keystone Bakery.

Half-barrel saur kraut just opened, only 5c a pound. Saunders & Earle.

If you want something nice for dinner try a bunch of fine celery. We have it today. G. S. Merchant & Co.

A true vanilla extract—such is Blue Ribbon, and as it goes twice as far as the ordinary weak vanilla extracts, it is the most economical in use.

Mrs. Robert Barton and children of Rocky Point were in the city yesterday, en route home from Hawthorn, where they have been visiting relatives.

C. N. Kirkland of Ocala was among those who spent yesterday in Gainesville. He is the efficient salesman for the Porter-Mallard Company, wholesale grocers.

W. L. Hill and Dr. Wilbur Lassiter have returned from points on the Santa Fe river, where they have been on a hunt for the past few days. They report plenty of luck, having killed all the quail and other wild game they desired.

Dr. J. F. McKinstry left yesterday for New York, where he was called by telegram on professional business. He expects to be absent for several days. It is indeed a compliment for a Gainesville physician to receive such a professional summons, and not only Dr. McKinstry, but the city, may feel complimented.

M. J. Beckham, a progressive farmer of Windsor, was in the city yesterday, and brought a quantity of meat to cold storage to be cured. Mr. Beckham states that the drought in his section, while it has proved disadvantageous to the planters, has not entirely discouraged him, and as a result all are working hard.

I. Stevens of Ocala, who has been in this city for the past two days, left yesterday for High Springs, where he will spend a short time as the guest of his son, H. C. Stevens. Mr. Stevens, notwithstanding that he is a little advanced in years, is possessed of full vigor and a very clever disposition, and has many friends here who are alwsys glad to see him.

Rev. A. B. Welch, colored, for fifteen years a subscriber of The Sun, was in the city yesterday, and renewed his subscripton. Rev. Welch is a most progressive member of his race, and a leader in his section. He holds the honored and responsible position of supervisor of the Green school, which opened on Monday last for the term with a fine attendance.

Rev. F. H. Craighill, rector of Holy Trinity Episcopal Church, has returned from Ocala, where he attended the annual session of the Southern Diocese of the Episcopal Church, and was present at the dedication service of the new Episcopal church in that city. He reports a very successful meeting, with representatives present from every section of the State.

L. V. Polk, who owns a nice farm in the Hague section, was among the visitors to this city Thursday. He is busily engaged now in replacing his old fence with a new and up-to-date wire enclosure, and has completed about a quarter of a mile. Mr. Polk has experienced considerable trouble recently by the destruction of fence by fire, and is determined to stop this annoyance and the loss attending it.

Among the visitors to this city yesterday was John C. Calhoun of Perry, clerk of the circuit court of Taylor county. Mr. Calhoun came on business connected with the United States land office, and after he had finished his business there he was ready to talk about Perry, Taylor county and the big things that are promised there. He says Perry has two banks, a number of business houses, and in all is a first-rate place to live in.
